

# QuickBooks Online and All Orders

Last Modified on 03/31/2021 3:28 pm EDT

As of December 17, 2019, QuickBooks Online will migrate to OAuth 2.0.

All Orders **does not support** the new QuickBooks Online authorization token. There are currently no plans to support the use of QuickBooks Online with All Orders at this time.

## Solution: New Migration Path

We have reached out to all of our current All Orders customers who are utilizing QuickBooks Online and offered a discount to switch to Order Time Inventory.

Our cloud-based platform, Order Time, can connect to QuickBooks Enterprise/Premier/Desktop, QuickBooks Online, and XERO.

We apologize for any inconvenience.

To learn more about Order Time Inventory, head [here](#).
