

Item is on list but not on sales order or purchase order

Last Modified on 03/31/2021 3:28 pm EDT

All Orders has the ability to show you items where they are needed. For example if you buy items for production but never sell them, why should they be on the sales order. Whether an item shows in a SO, PO or WO depends on its GROUP and particularly the IsSold, IsPurchased and IsUsed flags as follows:

IsSold: Quote, Sales Order, Ship Doc

IsPurchased: Purchase Order, Receiver

IsUsed: Work Order
