

# How do I include EMPLOYEE costs?

Last Modified on 03/31/2021 3:28 pm EDT

This is the way you do it:

1. Create an Item called Labor (should be a service item) select a new expense account
  2. Include the labor component in bill of materials.
  3. Labor will never be out of stock
  4. When you finish production, the labor cost will be deducted from expense and included in the cost of your finished product.
