Error -2147220958 The validate record has been updated at the same time by another user. This save has aborted. This error means another user has updated the record in QuickBooks. Solution: Close the tab you are trying to Save in All Orders. Also, make sure all related tabs are closed in both All Orders and QuickBooks. Go to Company -> Sync QB -> Sync. After the sync has completed try making your changes and Save again, if necessary.
