Error -2147217913: The conversion of varchar data type to a datetime data type resulted in an out-of-range datetime value

Last Modified on 03/31/2021 3:30 pm EDT

Error -2147217913: The conversion of varchar data type to a datetime data type resulted in an out-pf-range datetime value

If you are receiving this error it is being caused by the Regional Settings on your machine being set to something other than ENGLISH (US).

In order to fix this issue:

Change your Regional Settings to ENGLISH (US)

----go to START MENU--> CONTROL PANEL-->REGION AND LANGUAGE
-->change the format.

If you would like, you can then change the date format to be whatever format you prefer (as long as the main setting says ENGLISH (US)

If you continue to have issues after applying this solution, please contact Numbercruncher technical support at 1-866-278-6243 X 815
